**01/15**  
**Agency Nurses and Locum Doctors**

FOI question no. 1 - please can you separately tell me the total amount spent by the Trust on agency nurses and locum doctors during the periods:

April 2013 to March 2014;  
April 2014 to September 2014.

For clarification purposes, an 'agency nurse' or 'locum doctor' is a person who has been introduced to the Trust for hire on a temporary assignment / engagement by an employment business ('agencies'). This is not the same as a flexible worker engaged via bank.

**Answer: The table below represents invoice payments made by the Trust for agency qualified nursing staff only. The date invoices are paid may not necessarily reflect the period they cover.**

	April13- March14	April14-September14
<b>Total Expenditure</b>	<b>£3,324,605</b>	<b>£1,497,459</b>

The table below shows the total spent by the Trust for agency doctors only.

	April13- March14	April14-September14
<b>Total Expenditure</b>	<b>£2,374,004</b>	<b>£1,002,022</b>

FOI question no. 2 - please can you tell me whether your Trust uses agencies who have been awarded a framework for their supply such as those provided by Crown Commercial Services. If yes, please can you tell me the name of the framework used. If no, can you please tell me the percentage spent with any non-framework agencies? Where this information is not readily available, please provide an estimate.

**Answer: For Doctors, our Trust uses agencies on the GPS framework. For Nurses, we use agencies on the HTE Framework and also some agencies outside of the framework.**

**We can confirm that during April13-March14, 72.54% of the total nursing spend was to non-framework agencies and during April14-September14 it was 56.12%.**

**Unfortunately, the non-framework agencies are the most expensive but they were the only agency that could fill our Trust's shifts for a period of time.**

FOI question no. 3 - please can you tell me whether there is a member of your Trust's Board who is accountable for overseeing the use of temporary staff and whether temporary staff usage is regularly discussed at Board meetings. If yes, can you please tell me whether the Board member is a non-executive or an employee of the Trust? If a Trust employee, please can you tell me the role that person has within the Trust.

**Answer: Both our Medical Director and Human Resources Director (both Trust employees) have accountability for locum spend and the issue is regularly discussed at Board meetings.**

FOI question no. 4 - please can you tell me whether your Trust is considering recruiting nurses from overseas in the next 12 months? If yes, can you please confirm the number of nurses and roles your Trust is looking to recruit and the countries you are considering recruiting from.

**Answer: Our Trust plans to recruit 50 Nurses from Italy, Greece and Croatia within the next 12 month.**

The latest NHS Litigation Authority data for 2013/14 shows figures for three payments paid under the Clinical Negligence Scheme for Trusts (CNST) in 2013/14.

<b>2014/15</b>	<b>£11,070.05</b>

2. Please state what operations and procedures are available to private patients and, for each operation / procedure, the sum charged. For example, North Devon Healthcare NHS Trust provides a list here: <http://www.northdevonhealth.nhs.uk/private-patients/charges-and-fees/> If such a list is publicly available to view online then please direct me to the URL.

**Answer: The Trust does not have a price list for private patients which lists set tariffs for procedures. In principle the Trust could provide private patients with any of the hundreds of elective procedures which medium sized non specialist hospitals carry out . We actually treat very few private inpatients as most Surgeons undertake their private work elsewhere. If we did undertake the operation privately, the total charge would be made up of an element for length of stay and an element for time in theatre. These costs are shown below.**

The cost of an inpatient stay on a ward is £345 per day.  
Theatre costs depend on the length of the operation. Please see the table below.

Time of Operation	Cost £
Operations lasting up to 30 minutes	629
Operations lasting over 30 and up to 60 minutes	1181
Operations lasting over 60 and up to 120 minutes	2186
Operations lasting longer than 120 minutes	2990

In addition, some very expensive high cost medical supplies (e.g. hip or knee prostheses) might be charged separately according to actual cost.

Could you please also confirm if you use a direct engagement model within your trust?

Direct engagement model means the Trust pays agency staff directly and then pays the agency commission separately. The alternative to this is to pay the agency a lump sum for any work done by agency staff and the Agency in turn pays their own staff.

**Answer: We do not use a direct engagement model at our Trust. We pay the agency for the shift in full and then they pay their workers.**

**Answer: Our system does not record weight in terms of lbs, so the tables below detail liveborns with a weight over 4082grams.**

- The number of children admitted to trust hospitals where obesity is mentioned as a factor, broken down by their age

**Answer: Unfortunately, we are not able to define contributory factors to a patient's admission on our system. We can identify inpatient admissions where obesity was coded ie. the patient had obesity. Please note though that this does not necessarily mean that obesity is related to/causative of the current condition the patient was admitted for.**

**Please also note that patients could be duplicated if they were admitted more than once. This could also be under different ages if they were admitted within different years.**

### Confidentiality Agreements

I'd like to submit a request, under the Freedom of Information act, for information on the following data:

- The number of confidentiality clauses agreed in severance deals for trust staff from 2010-2014

**Answer: We have presumed this question relates to the number of severance deals agreed which contain confidentiality clauses rather than the number of confidentiality clauses within the agreements. Although the agreements contain a section on confidentiality, they relate to employees not passing on confidential information/data they have come in contact with whilst working for the Trust and does not prevent the employee from disclosing information which is in the public interest (whistleblowing).**

2011	14
2012	12
2013	17
2014	18

- The total amount of financial compensation paid to former employees as part of the confidentiality clauses from 2010-2014

**Answer: Please see below.**

2012	£225,523
2013	£450,987

I would like to request this information in relation to any staff whose contracts were terminated by the trust from 2010-2014.

Please send me the hospital fees for a bariatric operation and the names of Consultants who do such operations and their outpatient fees before the operation.

**Answer: Our organisation does not have a fixed price for bariatric operations. We actually treat very few private inpatients as most Surgeons undertake their private work elsewhere. If we did undertake the operation privately, the total cost would consist of the cost of the length of stay and time in theatre. These costs are broken down below.**

**The cost of an inpatient stay on a ward is £345 per day.**

**Theatre costs depend on the length of the operation. Please see the table below.**

<b>Time of Operation</b>	<b>Cost £</b>

Obviously, if you DO have data on 24-hour retirements, then please respond with that.

## Eczema Patients

Within your trust, how many patients are you currently treating for chronic eczema?

**Answer: Unfortunately, we are not able to identify these patients. Diagnostic coding is only available on Inpatient activity. Following conducting a search for these patients, we not have identified any current inpatients with this condition. This is not necessarily unexpected in that presumably most such patients would be managed either outside of hospital or where required in an outpatient setting.**

Of these how many for hand eczema?

**Answer: Please see the answer above.**

If you can provide the treatment, please split these eczema patients by their current drug treatment;

Acitretin

Alitretinoin

Tacrolimus

Pimecrolimus

PUVA - topical psoralen with UVA

PUVA - oral psoralen with UVA

Betamethasone dipropionate or valerate creams or ointments

Betamethasone creams or ointments

Fluocinonide creams or ointments

Fluticasone propionate creams or ointments

Mometasone furoate creams or ointments

Difluocortolone valerate creams or ointments

Clobetasol propionate creams or ointments

Other

**Answer: Unfortunately, as we cannot identify patients we are currently treating for chronic eczema, we are not able to confirm their current treatment.**

Does your trust treat Psoriasis patients with Fumaderm, if so, how many in the past year ?

**Answer: We have contacted our Pharmacy Department, they do not retain any information regarding diagnosis of patients in order to identify this information. We could perhaps confirm how many patients have been prescribed Fumaderm, but this would cover use for various conditions and not solely for psoriasis. If this information would be useful to you, please let us know.**

If you are unable to split the treatment by diagnosis, please provide the total by treatment from your pharmacy.

**Answer: Please see the answer above. We could perhaps confirm how many patients have been prescribed the medications listed above, but this would cover use for various conditions and not solely for eczema or psoriasis. If this information would be useful to you, please let us know.**

**Sun stroke, sun burn admissions**

Please could you let me know the number of people admitted to hospital or visiting A&E suffering from sunstroke, sunburn and/or heat-related injuries for 2011/2012, 2012/2013 and 2013/2014?

If possible, could you also break these down by:

- Month
- Gender
- Age groups: under 10, 10 – 19, 20 – 29, 30 - 39 etc

**Answer: Unfortunately, we are not able to identify these admissions individually. Admissions due to sun-burn are coded on our Clinical Coding System under the category ‘burn-radiation’. This category cannot be broken down. We can provide you with the total number of admissions under this category but this would cover all types of radiation burns. If this information would be useful to you, please let us know.**

**With regard to sun/heat stroke admissions, it would depend upon the problem/condition it caused a patient ie. respiratory, collapse, headache. We could then provide you with the total number of admissions with these conditions but this would cover all causes of these conditions and not solely sun/heat stroke. If this information would be useful to you, please let us know.**

Please can you provide me with the figures for ‘burn-radiation’

**Answer: Following an attempt to obtain this information for you, we have identified that we can only provide the number of A&E attenders whether admitted or not. Please see the table below.**

**As noted above, please be aware that the patient below presented under the category ‘burn-radiation’. This will include patients who were diagnosed with other radiation burns as well as sunburn (presumably such things as falling asleep next to a fire etc).**

**Where month of the year and age groups are missing, no patients matching this criteria were identified with this coding.**

Unfortunately, we do not have a central record of the MFDs and printer specifications.

Q4. What is your current colour and mono volumes for MFD and printers PA?

**Answer: We do not record this information on an ongoing basis but in 2013/14 we estimated a total of 4.9million clicks on MFD's. Unfortunately, this is not monitored on printers so we are unable to provide this information.**

Q5. What is your MFD spend PA?

**Answer: Estimated at £76.5k per annum**

Q6. What is your printer spend PA including consumables and maintenance?

**Answer: Estimated spend on print consumables previously estimated at £265k per annum. However in late 2014 the Trust implemented a major reduction in colour printing and a move to remanufactured toner cartridges which will have a major impact on spend, possibly halving the spend - actual figures not currently available.**

**The Trust also purchases fewer printers than previously. Spend on printers for 14-15 was approximately £11.5k.**

Q8. Do you have mobile printing technologies and BYOD strategies?

**Answer: Our Trust does not have a BYOD strategy nor mobile printing technologies.**

Q9. Do you have a print room for high volume print or do you outsource? How many FTE staff?

### **Cost of Finance Function**

Under a Freedom of Information request, your assistance in providing the following data for your Trust would be appreciated.

1. A diagram or organisation chart detailing the structure of the Finance directorate as at **31<sup>st</sup> March 2014**, specifically:

- a. The name of each department/section reporting to and including the office of Director of Finance/Chief Financing Officer

**Answer: Please find enclosed our Financial organisational structure dated November 2013 - (available upon request). Unfortunately, this is closest dated document we could locate in our files to your date request of 31<sup>st</sup> March 2014.**

b. The cost centre number of all departments/sections within the Finance directorate *A cost centre is normally recognised as a separate functional area to which costs are assigned within the organisation. Typically, I have seen that the costs and the staff working within the finance department, are split into the individual operating functions/specialties (management accounts, financial accounts payroll etc) with each having a unique code number to allow these costs to be traced in the finance and HR systems. The cost centre number is sometimes referred to as the "budget code".*

**Answer: The format of our cost centre number for all departments within our Finance Directorate is X-X-999, where X is alpha numeric and 9 numeric.**

- c. The job title of all positions within each department/section of the finance directorate (as detailed in part 1a above). Please note I do not require any personal information (such as incumbent names etc.).

**Answer: Please see the enclosed organisational structures as requested - (available upon request)**

- d. The grade (using the Agenda for Change descriptions) of all positions within each department/section of the finance directorate (as detailed in 1c above).

**Answer: Please see the enclosed organisational structures as requested - (available upon request).**

e. Details of whether each position (as detailed in 1c above) is occupied or vacant

**Answer: Unfortunately, vacant positions do not appear to be detailed within the organisational structures enclosed so we are not able to accurately provide this information.**

f. Details of the whole time/full time equivalent (WTE or FTE) status for each occupied position (as detailed in 1c above).

**Answer: Please see the enclosed organisational structures as requested - (available upon request).**

2. The total costs/expenditure incurred, as reported in the financial statements using the accruals principles, in providing the finance function for the Trust for the financial year ending **31<sup>st</sup> March 2014**, specifically:

a. The total cost/expenditure incurred of each department/section/cost centre of the Finance directorate (as described in parts 1a and 1b above). This cost should include all pay, non-pay (including costs for any Finance services outsourced to third parties) as well as depreciation costs as appropriate.

**Answer: Please see the table below.**

b. The total cost/expenditure incurred of the entire Finance directorate. This cost should include all pay, non-pay (including costs for any Finance services outsourced to third parties) as well as depreciation costs as appropriate.

If it helps, your response could be provided in a table matrix format similar to the one detailed below (but obviously represented by your own functions/cost centres within the Finance Directorate) and supported by a copy of your organisation chart for the Finance Directorate:

**Answer: Our Finance Department have one non-pay budget shared for the whole department rather than split between the functions. The pay & non-pay figures provided reflect actual expenditure to 31<sup>st</sup> March 2015. The non-pay total excludes depreciation, which is unavailable as we are not able to accurately identify this data from our systems at present. A full analysis of the total depreciation charge by department/function/specialty is conducted for reference cost purposes which is currently being undertaken.**

8. What proportion of total delayed transfers of care were related to mental health for each year between 2010-11 to 2014-15?

**Answer: With regard to delays in transfer – there is no guaranteed way of capturing this information within current systems. Referrals are made to the team with a KPI for 2 hours for urgents and up to 3 days for routine. Since the team has been in existence we have met every single KPI set by commissioners for assessment. Assessments are completed, recommendations are made and treatment prescribed for all patients referred so technically there are no delays in transfer due to mental health. What has happened on occasion is that a suitable placement has not been available or family have not made a decision on preferred place unfortunately, no accurate data is collected for this. With regard to transfer to the local Older People’s Mental Health Hospital the reason for delay is usually as a request for physical health investigations.**

9. Please provide copies of any correspondence sent from your trust chief executive to NHS mental health trusts, CCGs, NHS England or the Department of Health regarding pressures on your services linked to mental health in 2013-14 or 2014-15.

**Answer: Our Trust Headquarters have checked our electronic files since September 2013 and cannot find any correspondence relating to Mental Health from our Chief Executive to these organisations.**

**Correspondence over 2 years old would have been destroyed using confidential conditions. Any correspondence between June 2013 and August 2013 has been archived by the Information Communication & Technology (ICT) Department. If you would like our Headquarters to check this period as well for any of this correspondence, please let us know. We would be required to request access with the ICT Department in order to conduct a search which may take some time.**
