

**LKS** *Library and Knowledge Services*  
**Embedding Evidence Into Practice**  
**Case Study 4**

**Who:**

Matron for Sexual Health.

**Research request:**

Needs evidence to devise a training strategy for nurses and Allied Health Professionals (AHPs) working in the Trust.

**What we did:**

Discussed evidence requirements.

Carried out a scope literature searches and emailed relevant references direct to Matron's inbox.

Helped identify relevant evidence and advised on how to obtain full text articles.

**Benefit and impact:**

Trust training strategy and action plan for nurses and AHPs is evidence based.

Improved patient care in the long term owing to an informed workforce.

Professional development is supported by a standardised training framework that can be benchmarked throughout their career with the Trust.
