

**Kit Tarka  
Foundation**

Preventing newborn baby deaths  
through research & education

I love cuddles but make  
sure you wash your hands  
first and please don't kiss  
me unless I am your baby

Young babies with immature immune systems are very vulnerable to infections such as the cold sore virus (HSV) which can be mild in adults but life-threatening in babies.

If visitors are coming to see your new baby –  
make sure they remember their
