

Reflective Writing for Revalidation

Review different academic reflective models and opportunities to discuss a written piece of reflection.

Group (face to face)

Intended for students at all levels who are expected to submit reflective pieces as part of their coursework. This session looks at different academic reflective models and gives attendees the opportunity to discuss a written piece of reflection.

Learning Outcomes:

- What is the purpose of using a reflective model
- What are the popular models in healthcare and the differences between them
- Consider what makes a good piece of reflective writing

Duration: 1 hour and 30 minutes

Targeted Audience:

Students at all levels who are expected to undertake reflective writing.

To arrange tailored training fill out the [Training Request Form](#) and select the teaching session(s) you wish to attend.
